

## The Purple Couch: Stories From America's Living Room

*One Couch. . . Many Voices*

"**The Purple Couch: Stories From America's Living Room**" brings the uplifting, inspiring, and healing power of story to an increasingly disconnected and anxious world. A vibrant purple couch, placed in the most unlikely of settings welcomes people from all walks of life to share their hearts and stories.

From Midwestern small towns to decaying inner-city streets, whether in a prison yard or a West Virginia coal mine, The Purple Couch explores every pocket and corner of this country, giving a voice to the people who call these places home. As they sit and reveal their most intimate stories, viewers are transported into their lives and their worlds.

The Purple Couch provides viewers with the most common of human needs: to join together and listen to stories that help us to remember our shared humanity, help us remember we are not alone.
